NOOA VON SCHÖNEMAN

Economics Student | Aalto University
Espoo & Turku, Finland | nooa.vonschoneman@aalto.fi

EDUCATION

Master of Science in Business Analytics
Aalto University | Espoo, Finland *Sep 2026 – Present*

Concurrently enrolled in Master's level coursework in Business Analytics while completing final Bachelor's courses.

Bachelor of Science in Economics (Minor: Finance)
Aalto University | Espoo, Finland *Sep 2023 – Present (Expected Q1 2027)*

Completed ~80% of the degree as of September 2026 and projected to graduate in Q1 2027. Relevant coursework: Econometrics, Micro/Macroeconomics, Data Analysis with Python, Programming, Databases for Data Science

Matriculation Exam
Luostarivuoren Lyseon Lukio | Turku, Finland *Aug 2019 – Jun 2022*

Graduated from Luostarivuori having taken matriculation exams in seven subjects, including Advanced Math, Finnish, Swedish, English, History, Philosophy, and Social Studies. On the grading scale of 0–7, received one 7, three 6s, and three 5s.

ACADEMIC PROJECTS

Empirical Bachelor's Thesis in Economics | Grade 5/5
Aalto University | Espoo, Finland *May 2026 – August 2026*

Evaluated the causal impact of Ban the Box employment legislation on labor market outcomes. Applied Difference-in-Differences (DiD) estimation in Stata using large-scale microdata from the American Community Survey (ACS). Conducted robust parallel trends testing and evaluated the results against other relevant studies of the topic.

EXPERIENCE

Freelance Creative Work *2021 – Present*
Undertook various commissioned and self-directed creative projects spanning photography, music production, live performance, and video/photo editing. Examples include wedding / band photography gigs, creating commissioned content for social media platforms from scratch or unedited source material, producing music albums and performing music in various stages across Finland.

Research Assistant *Feb 2023 – Jul 2023*
Supported the Genetics department at Turku University Hospital as part of the department's initiative to create a digital patient archive. The work mainly revolved around sorting and scanning historical patient documents from the paper archives and cleaning the core data to the digital Progeny platform for future use.

Summer Trainee *Summer 2019 & 2021*
Assisted daily operations at various elderly care centres in Turku during the summers of 2019 and 2021. Tasks varied greatly day by day but generally revolved around supporting resident care and staff.

RELEVANT SKILLS

Technical Proficiency: Experience in various tools such as MS Office, Python (pandas, numpy), Stata, and Adobe Creative Suite for data analysis, reporting, and presentation design. Maintains current knowledge of emerging AI models from Google and Anthropic and applies them effectively within research and analytical workflows.

Teamwork & Collaboration: Collaborated closely with peers on group coursework, case studies, and joint projects throughout the Economics program. Also coordinated with bandmates and collaborators on live performances and music productions.

Communication & Presentation: Experience presenting economic analysis in academic and thesis settings. Skilled at breaking down complex topics into clear, structured presentations for varied audiences.

Deadline Management: Balanced full-time coursework, a bachelor's thesis, and freelance commitments simultaneously, consistently meeting overlapping academic and project deadlines.

Languages: Native Finnish, Excellent English, Conversational Swedish.
